## IS YOUR CONFIDENTIAL INFORMATION REACHING THE WRONG PEOPLE VIA EMAIL?

### Secure your materials with **Safeguard Send** from Sperry Software.

**Safeguard Send** integrates directly with Microsoft Outlook. According to your settings, it generates prompts when users try to:

- Send an email outside your organization.
- Send an email to a specific person or company.
- Send an email that contans keywords selected by you.
- Send an email to too many recipients . . . or even any email at all.

You can turn each feature on or off and customize each prompt.

**Why choose Sperry Software?**

- Thousands of satisfied customers, including Fortune 500 companies: General Electric, Merck & Co., Cisco and Microsoft.
- Free, complete customer support—the best in the industry.
- Quality products from a Microsoft Certified Partner.
- Money-back guarantee.

### Safeguard Send

- Keep sensitive information secure.
- Prevent confidential information from leaving your organization.
- Protect information about a specific case, subject or person.
- Step in before confidential materials reach a particular person or company.
- Decrease your risk of liability.
- Save time, disk space and bandwidth.
- Protect your trade secrets.
